MONTANA TECH REPORTING

All employees, with the exception of Montana Tech Counselors, are required to report incidences of sexual misconduct of students to the Montana Tech Title IX Coordinator. Montana Tech is required to investigate all reports of prohibited behavior on campus. Safety is paramount and various avenues can be taken while an investigation is occurring. This can include changing of class schedules, enforcement of no-contact orders, temporary housing arrangements, and pursuit of Student Conduct Code pro-ceedings as appropriate. There are many ways to initiate a report. In addition to Montana Tech Counselors or [Safe Space](#), the following can assist in the process:

Dean of Students

Dr. Craig Elliott, celliott1@mtech.edu
406-496-4198

Director Environmental Health & Safety
