

# SOFTWARE ENGINEERING

SCHOOL OF MINES AND ENGINEERING

## SOFTWARE ENGINEERING AT MONTANA TECH

Our ABET-accredited software engineering program prepares you for cutting-edge technology and computing careers by gaining practical experience designing, building, testing, and maintaining software systems. You'll learn from our world-renowned faculty, who bring industry experience and broad academic interests. You'll benefit from easy access to state-of-the-art computers and equipment for research and project work. You'll also gain real-world experience through internships during your upper-level years.
