

School of Mines and Engineering

Dean, Dr. Kenneth Lee, PE

Welcome to Montana Tech and the School of Mines and Engineering!

The School of Mines and Engineering at Montana Tech offers a variety of ABET-accredited degrees in engineering and computer science. Our world-class faculty is dedicated to the success of our students, and students learn and conduct research in our state-of-the-art facilities. Montana Tech has one of the lowest tuitions in the country, and our graduates are in high industry demand commanding impressive salaries. Our campus is located in the historic city of Butte, where students enjoy plentiful town attractions and engage in year-round outdoor activities. Inside our scenic campus, students can participate in over 70 clubs and organizations and athletic programs such as football, basketball, volleyball, golf, track & field, and cross country.

The sky's the limit in Big Sky Country! Start your journey by contacting one of our admission representatives or filling out the free online application.

I'll see you soon!

Kenneth Lee, Ph.D., PE
