I chose Montana Tech because of its size, beautiful location, and the opportunities it offers through its unique software engineering program. The department's small class size has allowed me to build long-term professional relationships with my peers and professors, and its excellent faculty prepared me to achieve my dream job. I am leaving feeling well prepared for the next phase of my life.

-Sequoia Pflug, B.S. Computer Science, Software Engineering, '25

CAREER PATHS

Our graduates are prepared for a variety of high-paying and challenging roles. Some common career paths include computer programmer, database administrator, or computer systems analyst. Many of our graduates also continue their education in computer science and related fields, pursuing advanced degrees to specialize in areas like artificial intelligence or data science.

\$140,910
median annual salary
(BLS, 2024)

WHERE DO OUR GRADUATES GO?

WHY STUDY COMPUTER SCIENCE AT MONTANA TECH?

- Small classes taught by dedicated instructors
- One-on-one interactions with faculty who offer mentorship from class to career
- Preparation for in-demand careers in industry or to continue your education with placement in graduate programs

HANDS-ON LEARNING

- Hands-on experience through course projects, research, competitions, and internships
